

Kathy (Fandel) Erusha

Name, address and e-mail:

Kathy Fandel Erusha
4517 Chestnut Ridge Road NE
Cedar Rapids

k.erusha@mac.com

Family names & ages:

Husband: David
Daughters: Emily (31), Beth (28)

What's happening in our family?

David and I have been married for 36 years and have two daughters Emily and Beth. They are both married, live in Minneapolis and are apparel buyers for Target Corporation. I recently retired as an Elementary School Principal for the Cedar Rapids School District. Thirty five years in education was a great career but it was time to enjoy some freedom and travel with David and visit the girls in Minneapolis. David remains at Rockwell but plans to retire in 2010. We are anxious for grandchildren but see none in sight. However, hope springs eternal.

Fond memories of high school:

There are many fond memories of high school including football and basketball games, girlfriends, slumber parties, bus trips, dances, and just being with great people who remain in my thoughts even after so many years.

Career status:

Retired Elementary School Principal

How I spend my time:

I spend my time between our home in Cedar Rapids and our condo at Lake of the Ozarks. I love interior design, great books, traveling, and spending time with family and friends. David still travels some internationally for Rockwell so I have the pleasure of joining him sometimes.

Comments for classmates:

Thank you for being such great friends. I laugh just thinking about some of the crazy moments in the cafeteria. Alicia did still that pie from the kitchen!

Lessons learned since 1969:

Life moves quickly and it is important to always celebrate the simple moments with family and friends.

Remain fearless. Seek joy every day. Dignify all individuals.

When you see me please don't ask:

I will be out of town for the reunion but will think of you that weekend. I hope to continue to make connections with you through this great website.

Thank you John, Jim and anyone else who helped design this site. It is a gift to us all.
