Fond memories of high school:

Just a series of fun memories, things that happened in the hallways and classrooms at school. Dances and sporting events at LaSalle were great, a few great teachers and some classes I really enjoyed. Too many activities with my friends away from school to list. I think Chris would agree we have special memories of Fr.Heles, who eventually officiated at our wedding.

Career status:

After graduating from UNI, I began teaching at Ankeny High School in the Social Studies department. After 15 years there, I switched to one of Ankeny's middle schools continuing in Social Studies, but now with 7th graders. After 33 years in Ankeny, I retired in 2006. My intent was to work in endeavors completely different from teaching, preferably part time. So far, so good!

How I spend my time:

For the last year or so, I've tried to balance a few things, working when necessary, keeping our house in condition to sell, and traveling whenever we can to Salt Lake City or Colorado Springs to visit our kids and grandkids. We've enjoyed trips to Las Vegas, Orlando, Chicago, Phoenix (to see Chris's parents), Portland OR, Seattle, Jamaica (great week for Heather's wedding), Hawaii (a fabulous 2 weeks with our kids in Maui last summer), Paris and London.

I have reached a new stage in life where I try to keep up with my wife's incredible tech savvy pursuits. Recently I used her iphone, used the wrong application and suddenly we owned 25% of a Bulgarian bank!!! 😱

Comments for classmates:

Please get to our reunion if possible, even if it's only for a few hours.
Hey, what happened to Nick Streff?

Lessons learned since 1969:

Never bet on anything staying the same.

When you see me please don't ask:

Don't ask me to share my tornado story.
