Family names and ages:

My wife is Barbara (Krueger) originally from West Bend, WI. Our daughters Stephanie and Lindsay are 23 years of age and they live in the Everett, WA area. My parents Dave and Joan are 82 and 80 and still doing well living in CR. Barb's mother lives in Florida and is 88 and is doing very nicely.

What's happening in our family:

Barb and I are getting ready to take our boat up to Nanaimo, BC this Thursday June 4th to compete in the Van Isle 360 sail boat race. It is two weeks long and goes the 550 mile distance around Vancouver Island. If you have a moment you might want to have a look: [Time Bandit at the Van Isle 360](#)

Fond memories of high school

I still like to recall the time I spent with my good friends Jim H. and Tom H. We had a lot of fun doing stupid stuff that didn't cost much money. Flying hot air balloons off of the parking ramps in down town CR in the middle of the night. Or climbing onto St Jude's to take pictures of the cars leaving LaSalle after some event? And the time our bottle of home brew pear wine exploded in Jim's house during a social gathering that Jim's mother was hosting.

Career Status:

I retired in 1998 from a career in engineering.

How I spend my time:

- on the board (free laborer) of two non-profit organizations on Orcas
- write WEB pages for small companies and non-profit organizations
- race Time Bandit a lot but we are looking to slow that down
- cut & split wood for the winter heating seasons
- grow our own vegetables year round
- try to keep the pine needles out of the rain gutters and other maintenance stuff
- most every Tuesday I talk with my dad on the HAM radio

Comments for classmates:

I'm looking forward to seeing you again.

Lessons learned since 1969:

Stocks can go down even further, don't sail to the corners of the race course, my wife is always right (seriously), and avoid outrage because it never helps, it interferes with creative thinking and it's addictive.

When you see me don't ask:

What color did your hair used to be?
