Jamie has her Master's Degree in Behavior Science and is currently working in Memphis, TN

A friend and I are planning to travel for a few months this fall, going through the Dakota's; Washington (my sister lives in Puyallup); down through California (Brother lives in Mission Hills) - plan on attending my nephew's wedding while we are there; then into Arizona (sister lives in Phoenix); but plan on staying a few weeks in the Prescott, Sedonia area (my friend lived there for 10 years and wants to show me around); will also stop in Texas (brother-in-law lives in Dallas); then onto Tennessee to visit my Daughter. As you can see I have family in quite a few states. We will be traveling over 6000 miles but we do plan on taking our time, enjoying our surroundings and having fun.

Fond memories of high school:

Basketball and Football games
Hanging out with Friends
Dances
Slumber Parties

Career status:

I've worked for The Department of the Army (Civilian) for 34 years as a Personnelist. We recruited Reserve Technicians for the entire United States including Puerto Rico, Korea, Germany, Italy, England - and filled behind those Technicians who were mobilized to go to IRAG/Afghanistan. I was a Retirement Counselor/Personnel Specialist for a few years and then became the Division Chief of the Military Technician Division where I supervised 40 employees. As we had over 10,000 positions to keep filled it would sometimes become quite hectic. I have traveled to a number of states and countries during my career and am very thankful, but am happy to say that I retired as of May 31, 2008 and am enjoying every minute.

How I spend my time:

Spending time with Family; Taking care of my year old granddaughter; Golf; Traveling; Yard Work; Exercise

Comments for classmates:

I'd love to hear from you

Lessons learned since 1969:

That time is too short to worry about the small stuff.

When you see me please don't ask:

I'm pretty open - you can ask anything.
